WARRANTEE DEEDS FOR SALE,

DAILY GAZETTE.

THE MILITARY LEADERS.

BY D. P. BUTLER.

The following is a brief report of the characters of some of our leading men, taken down from a lecture delivered March 5th. The observations were made from the best photographs and lithographs that could be obtained:

PRESIDENT LINCOLN.

His head is large, but not *very* large. It is above the average. Considerably full—a good degree of power, but not one of the greatest of men. His head probably measures 23 inches. It is comparatively narrow at the base, but large and all at the top. Intellect is in good proportion, but the moral is the strongest power. He is one of the most honest leaders we have had. He is not a warrior, and therefore out of his place as commander-in-chief of the army and navy. His brain has not base enough. He is too timid—wants more destructiveness and combativeness. In peace, he would be an admirable president. He is a *good* one now, but is not bold enough—not fighter enough, and consequently cannot inspire others to fight. With qualities like Andrew Jackson he would have ended the war before now. A good and wise *man, but too timid for such an emergency*—head too narrow to lead a nation to battle—to enforce law at the point of the sword and month of the cannon.

GENERAL SCOTT

has a large head and large body. If he had been 30 years younger, very different results would have followed. He has power enough but is too old. Has a strong, commanding, physical organization, large brain—large at the base and large intellect. He has also courage enough. I don't believe he ever got scared in his life. He is the greatest warrior we have had since Washington. We have none his equal as he was in his best days.

BANKS

is more of a statesman than a general. He is a well fortified man—has the best kind of education and discipline; few hold all their power in hand as well as he; few have that power to control others. He is a good man to select and appoint—to choose the best circumstances. He will never be a *great* general; he is prudent, successful, safe, but not a powerful warrior. There is hardly enough of fight in him. His head measures about 23 inches. It has great solidity in proportion to size. He is rightly called "the *iron man*"—is powerful in proportion to his size. He is well developed in intellect—has good judgment—and is high in the *crown* of the head. He has a great perseverence—is a *Jackson* in will—has *immense* will power. He has also great moral power. He is not tricky; is honest; *motives are good*; and he is thoroughly loyal. He is not selfish as some suppose. He has great prudence and self control; is very discreet, and wonderfully self-possessed. He is the greatest man of his sized brain that we have. Seward has more cunning and shrewdness, but is not so able as Banks. He is full cautious enough; I would like to see more daring and inspiration.

BURNSIDE

has a large brain, and is able as a general, but has not quite caution enough. He has talent enough for a major general, and could handle 100,000 men successfully, but lacks caution. He has not sufficiently large self-esteem, but is a *little* too much like his mother—who must have been a noble woman, but exceedingly generous and tender. If he was more bloodthirsty and cool, it would be better. (That is, speaking phrenologically and for the war.) He has a noble moral head, and is fully loyal.

STONEWALL JACKSON.

is a great man and a *good* man, though a rebel. He believes he is right. He is well developed morally—has a great intellect, and great originality. He is bold, courageous, and ignores the usual rules, as Bonaparte did. He is more like Bonaparte than any one else in either army, but of course is not so great. Every time we have been seriously threatened, he did it. No one else has done it. He is, comparatively, half the power of the south. I wish he had been the commander of the army of the Potomac. He is a nobleman, very talented, and has great capacities as a general. The first time I saw his face, my heart sunk within me. The south is strong with him. One such man can hardly be over-estimated. His moral brain as a whole is splendid. He is *really* a religious man, and the stronger for this. He is not, I repeat, absolutely great as a warrior, in the sense Bonaparte, or the half dozen great commanders of the world, but compared with any that we have now, he *is* great.

FREMONT

has a large brain—about 23 inches—well developed in the top—rather strong in the base, but not too much so. He has a very intense temperament, which gives him great vigor. He is whole-souled in everything—an able man—much more so than most of our major generals. He has one *great peculiarity.* He *is more susceptible* to moral inspiration than any man we have got. He is somewhat of a revolutionist; mark that. You may think of it six months from now. But he will only revolutionize *upwards.* I can conceive of such a revolutionary work. He is thoroughly loyal, and can be trusted. He is different from Banks or Burnside. He is more intense—revolutionary. It is doubtful if he obeys orders *to retreat* so well. He is the American Garibaldi.

MC CLELLAN.

has a most powerful physical organization for his size. His *body* is one of the most powerful I ever saw. He has great physical endurance. He would endure to any extent. He might be shot two or three times—he wouldn't mind it. He knows how to take care of himself. He has courage to any amount when disposed to exercise it, but he will keep out of the way of danger, from the selfish element which is too strong in him. He is not too cautious; he has a great deal more cunning than caution. He is very prudent. His brain is not a very large one, and he is not comprehensive; but he is shrewd and self-possessed. He is very vigorous. You can't see through him. His secretiveness is very large. You can't get information out of him. He has already been much before the courts of inquiry and investigation, but they can't know anything of him. His head measures about 22½ inches. It is not large enough for commander in-chief. We need a man of more *comprehensive* brain. Under some circumstances he has ability as a major general, but none too much for a brigadier. He has a peculiar kind of talent—for the *defensive.* He is one of the best of engineers, or for managing artillery; but the command of 150,000 men would overwhelm him. His brain is not sufficiently massive, and too low for the requisite, moral inspiration. He is able in organizing and disciplining any army, erecting fortifications and defending them. He has few equals for the *science* of war—especially the details, but the moral of his head is not enough for base. He is extremely wide between the ears, but the top of the head is low. Compare, or rather contrast, Burnside and Hooker, in height, with him! There is a great difference. In short, his two greatest deficiencies are comprehensiveness and moral inspiration.

SIGEL

is very smart—the most *scientific* general we have. He is a natural scholar, and a good judge of tactics. He has an exceedingly active temperament. He has not quite enough of animal power, but has plenty of courage. He is no doubt loyal, but for thorough work.

GRANT

is a powerful man. All through—base, top, (if a temperate man,) is very able.—Don't know how large his head is—can't speak, therefore, as to comprehensiveness.

MC DOWELL

is rather able. He has not crown enough—is too sluggish—wants more motive power—has not fire enough. His conscience *is not large enough, but he is good-hearted* and too much influenced by his friends.

HOOKER.

"Don't know how large his head is. If it is large enough he will go to Richmond. His *quality* is all right. He is every inch a man. He will make good time when he starts. He has the boldest, most fighting qualities of any general we have got. I felt relieved when he was appointed to command the army. He has a good body, good temperament, is honest, has courage enough, both moral and animal. He will take the responsibility. He is open hearted, plain, and will do what he undertakes, if he lives, and it is possible with his power. He is not reckless, but bold and daring, and has good judgment to back it up. He will do *right,* as he understands it.—He is loyal himself, and calculates to make others so.

BEAUREGARD

is like McClellan in some respects—but not in others. He is an able engineer; there are few so able. He is courageous, but too low in the moral region. Quite able, skillful, but not great.

SECRETARY CHASE
(*Allow me to mention him.*)

is one of the greatest men in the country. I said this ten years ago. He can furnish money as long as there is anything to base it on. He is rather sluggish, but needs just such an occasion to call him out. He is remarkably comprehensive. We shan't want for money while he is secretary of the treasury.

And thus, said the lecturer, considering how men are organized, educated, and circumstanced, it is no wonder that the war goes on no better than it does. It goes on, perhaps, as well as it can, considering how men are selected. But it is a matter for very grave and considerate reflection, to have the right man in the right place.

Capitol Enlargment.

EXECUTIVE DEPARTMENT,
MADISON, April 2d, 1863.

NOTICE is hereby given that sealed proposals will be received at the Executive Office, Madison, until twelve o'clock, noon, of saturday, the 9th day of May, 1863, for the building and erection of the foundation of the south wing and of the rotunda of the state capitol to the top of the water table, and the erection and completion of the north wing thereof, as provided by chapter 107 of the general laws of 1863 to which and to chapter 20 of the general laws of 1857 reference is hereby made.

All the work to be executed and all the materials furnished in accordance with the plans and specifications of the Architect, [Mr. Kutzbock,] at whose house in the city of Madison all persons desiring to bid will find full and complete plans and specifications, at any time after the 15th inst.

The work is to be executed under the general direction of the Architect employed by the state to superintend the construction of the same; the whole of the work to be completed on or before the 31st day of December, 1863.

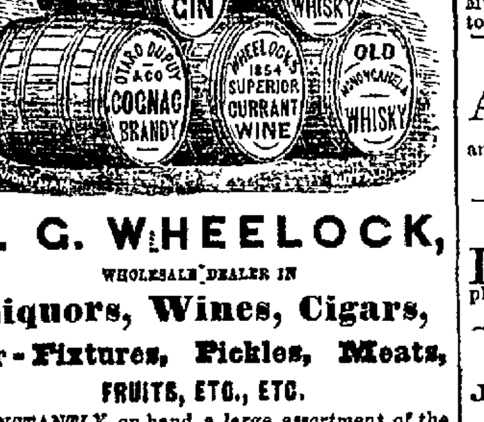

A bond of twenty thousand dollars will be required to be executed to the state, by the person or persons taking the contract, with five or more sureties to be approved by the undersigned, building commissioners, conditioned for the prompt and faithful prosecution and completion of the work under such contract. All proposals must specify the names of the sureties proposed to be given, and must contain their consent to the use of their names as such.

Any contract made under the provisions of said act will ensure the right and power in the state to declare such contract abandoned and forfeited, if the contractors shall neglect or abandon the work, or fail to prosecute the same with such diligence and dispatch as will seasonably secure the completion of the work in the time specified in such contract: and such contract will provide that no liability whatever shall exist on the part of the state for any service rendered under or upon any contract so abandoned or forfeited.

No bid will be considered except for the completion of the entire work proposed to be done, and no contract will be entered into for the completion of said building that shall create any liability against the state greater than the amount appropriated by said chapter 107, of the general laws of 1863.

Upon the opening of said bids at the time specified, the undersigned, building commissioners, will award the contract to the person or persons they shall determine to be the lowest and best bidder, within the meaning of the law.

FLORENCE SEWING MACHINE.
OVER THE POST OFFICE.

THERE is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY.

Who take pleasure in placing their Machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantage of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our Machines will be promptly answered. Enclose a Letter Stamp and we will send circular and sample of work by return mail.

WARRANTEE DEEDS FOR SALE.

DAILY GAZETTE.

THE MILITARY LEADERS.

BY D. P. BUTLER.

The following is a brief report of the characters of some of our leading men, taken down from a lecture delivered March 5th. The observations were made from the best photographs and lithographs that could be obtained:

PRESIDENT LINCOLN.

His head is large, but not *very* large. It is above the average. Considerably full—a good degree of power, but not one of the greatest of men. His head probably measures 23 inches. It is comparatively narrow at the base, but large and all at the top. Intellect is in good proportion, but the moral is the strongest power. He is one of the most honest leaders we have had. He is not a warrior, and therefore out of his place as commander-in-chief of the army and navy. His brain has not base enough. He is too timid— wants more destructiveness and combativeness. In peace, he would be an admirable president. He is a *good* one now, but is not bold enough —not fighter enough, and consequently cannot inspire others to fight. With qualities like Andrew Jackson he would have ended the war before now. A good and wise man, but too timid for such an emergency—head too narrow to lead a nation to battle—to enforce law at the point of the sword and mouth of the cannon.

GENERAL SCOTT

has a large head and large body. If he had been 30 years younger, very different results would have followed. He has power enough but is too old. Has a strong, commanding, physical organization, large brain—large at the base and large intellect. He has also courage enough. I don't believe he ever got scared in his life. He is the greatest warrior we have had since Washington. We have none his equal as he was in his best days.

BANKS

is more of a statesman than a general. He is a well fortified man—has the best kind of education and discipline; few hold all their power in hand as well as he; few have that power to control others. He is a good man to select and appoint—to choose the best circumstances. He will never be a *great* general; he is prudent, successful, safe, but not a powerful warrior. There is hardly enough of fight in him. His head measures about 23 inches. It has great solidity in proportion to size. He is rightly called "the *iron man*"—is powerful in proportion to his size. He is well developed in intellect—has good judgment—and is high in the *crown* of the head. He has a great perseverence—is a *Jackson* in will—has *immense* will power. He has also great moral power. He is not tricky; is honest; motives are good; and he is thoroughly loyal. He is not selfish as some suppose. He has great prudence and self-control; is very discreet, and wonderfully self-possessed. He is the greatest man of his sized brain that we have. Seward has more cunning and shrewdness, but is not so able as Banks. He is full cautious enough; I would like to see more daring and inspiration.

BURNSIDE

has a large brain, and is able as a general, but has not quite caution enough. He has talent enough for a major general, and could handle 100,000 men successfully, but lacks caution. He has not sufficiently large self-esteem, but is a little too much like his mother—who must have been a noble woman, but exceedingly generous and tender. If he was more bloodthirsty and cool, it would be better. (That is, speaking phrenologically and for the war.) He has a noble moral head, and is fully loyal.

STONEWALL JACKSON.

is a great man and a *good* man, though a rebel. He believes he is right. He is well developed morally—has a great intellect, and great originality. He is bold, courageous, and ignores the usual rules, as Bonaparte did. He is more like Bonaparte than any one else in either army, but of course is not so great. Every time we have been seriously threatened, he did it. No one else has done it. He is, comparatively, half the power of the south. I wish he had been the commander of the army of the Potomac. He is a nobleman, very talented, and has great capacities as a general. The first time I saw his face, my heart sunk within me. The south is strong with him. One such man can hardly be over-estimated. His moral brain as a whole is splendid. He is *really* a religious man, and the stronger for this. He is not, I repeat, absolutely great as a warrior, in the sense Bonaparte, or the half dozen great commanders of the world, but compared with any that we have now, he *is* great.

FREMONT

has a large brain—about 23 inches—well developed in the top—rather strong in the base, but not too much so. He has a very intense temperament, which gives him great vigor. He is whole-souled in everything—an able man—much more so than most of our major generals. He has one great peculiarity. He is more susceptible to moral inspiration than any man we have got. He is somewhat of a revolutionist; mark that. You may think of it six months from now. But he will only revolutionize *upwards.* I can conceive of such a revolutionary work. He is thoroughly loyal, and can be trusted. He is different from Banks or Burnside. He is more intense—revolutionary. It is doubtful if he obeys orders *to retreat* so well. He is the American Garibaldi.

MC CLELLAN.

has a most powerful physical organization for his size. His *body* is one of the most powerful I ever saw. He has great physical endurance. He would endure to any extent. He might be shot two or three times—he wouldn't mind it. He knows how to take care of himself. He has courage to any amount when disposed to exercise it, but he will keep out of the way of danger, from the selfish element which is too strong in him. He is not too cautious; he has a great deal more cunning than caution. He is very prudent. His brain is not a very large one, and he is not comprehensive; but he is shrewd and self-possessed. He is very vigorous. You can't see through him. His secretiveness is very large. You can't get information out of him. He has already been much before the courts of inquiry and investigation, but they can't know anything of him. His head measures about 22½ inches. It is not large enough for commander-in-chief. We need a man of more *comprehensive* brain.

Under some circumstances he has ability as a major general, but none too much for a brigadier. He has a peculiar kind of talent—for the *defensive.* He is one of the best of engineers, or for managing artillery; but the command of 150,000 men would overwhelm him. His brain is not sufficiently massive, and too low for the requisite, moral inspiration. He is able in organizing and disciplining any army, erecting fortifications and defending them. He has few equals for the *science* of war—especially the details, but the moral of his head is not enough for base. He is extremely wide between the ears, but the top of the head is low. Compare, or rather contrast, Burnside and Hooker, in height, with him! There is a great difference. In short, his two greatest deficiencies are comprehensiveness and moral inspiration.

SIGEL

is very smart—the most *scientific* general we have. He is a natural scholar, and a good judge of tactics. He has an exceedingly active temperament. He has not quite enough of animal power, but has plenty of courage. He is no doubt loyal, but for thorough work.

GRANT

is a powerful man. All through—base, top, (if a temperate man,) is very able.—Don't know how large his head is—can't speak, therefore, as to comprehensiveness.

MC DOWELL

is rather able. He has not crown enough —is too sluggish—wants more motive power—has not fire enough. His conscience is not large enough, but he is good-hearted and too much influenced by his friends.

HOOKER.

Don't know how large his head is. If it is large enough he will go to Richmond. His *quality* is all right. He is every inch a man. He will make good time when he starts. He has the boldest, most fighting qualities of any general we have got. I felt relieved when he was appointed to command the army. He has a good body, good temperament, is honest, has courage enough, both moral and animal. He will take the responsibility. He is open hearted, plain, and will do what he undertakes, if he lives, and it is possible with his power. He is not reckless, but bold and daring, and has good judgment to back it up. He will do *right,* as he understands it.—He is loyal himself, and calculates to make others so.

BEAUREGARD

is like McClellan in some respects—but not in others. He is an able engineer; there are few so able. He is courageous, but too low in the moral region. Quite able, skillful, but not great.

SECRETARY CHASE

(*Allow me to mention him.*)

is one of the greatest men in the country. I said this ten years ago. He can furnish money as long as there is anything to base it on. He is rather sluggish, but needs just such an occasion to call him out. He is remarkably comprehensive. We shan't want for money while he is secretary of the treasury.

And thus, said the lecturer, considering how men are organized, educated, and circumstanced, it is no wonder that the war goes on no better than it does. It goes on, perhaps, as well as it can, considering how men are selected. But it is a matter for very grave and considerate reflection, to have the right man in the right place.

Capitol Enlargment.

EXECUTIVE DEPARTMENT,
MADISON, April 2d, 1863.

NOTICE is hereby given that sealed proposals will received at the Executive Office, Madison, until twelve o'clock, noon, of Saturday, the 9th day of May, 1863, for the building and erection of the foundation of the south wing and of the rotunda of the state capitol to the top of the water table, and the erection and completion of the north wing thereof, as provided by chapter 107 of the general laws of 1863, to which and to chapter 20 of the general laws of 1857 reference is hereby made.

All the work to be executed and all the materials furnished in accordance with the plans and specifications of the Architect, [Mr. Kutzbock,] at whose house in the city of Madison all persons desiring to bid will find full and complete plans and specifications, at any time after the 15th inst.

The work is to be executed under the general direction of the Architect employed by the state to superintend the construction of the same; the whole of the work to be completed on or before the 31st day of December, 1863.

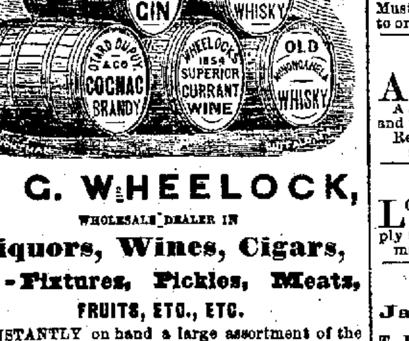

A bond of twenty thousand dollars will be required to be executed to the state, by the person or persons taking the contract, with five or more sureties to be approved by the undersigned, building commissioners, conditioned for the prompt and faithful prosecution and completion of the work under such contract. All proposals must specify the names of the sureties proposed to be given, and must contain their consent to the use of their names as such.

Any contract made under the provisions of said act will ensure the right and power in the state to declare such contract abandoned and forfeited, if the contractors shall neglect or abandon the work, or fail to prosecute the same with such diligence and dispatch as will seasonably secure the completion of the work in the time specified in such contract: and such contract will provide that no liability whatever shall exist on the part of the state for any service rendered under or upon any contract so abandoned or forfeited.

No bid will be considered except for the completion of the entire work proposed to be done, and no contract will be entered into for the completion of said building that shall create any liability against the state greater than the amount appropriated by said chapter 107, of the general laws of 1863.

Upon the opening of said bids at the time specified, the undersigned, building commissioners, will award the contract to the person or persons they shall determine to be the lowest and best bidder, within the meaning of the law.

FLORENCE SEWING MACHINE.

OVER THE POST OFFICE.

THERE is nothing so much sought for by the public as a practical Sewing Machine, one that is

Simple, Strong & Reliable.

One that will run for years without the annoyance of being out of repair; one that is noiseless and swift in motion; also that makes the stitch as you want it, alike on both sides of the fabric; such are the machines of the

FLORENCE SEWING MACHINE COMPANY.

Who take pleasure in placing their Machines before the public, and unhesitatingly say they are the best in the world, and openly and publicly challenge machines of any and all manufactures to do as large a range of work as can easily be done on one of these machines. They make

FOUR DIFFERENT STITCHES,

and have all the advantage of a reversible feed motion, which carries the work either way, which, together with making all the four stitches, can be done whilst the machine is in motion; the saving of time in stepping to change the length of stitch, is obviated by this machine.

Any correspondence regarding our Machines will be promptly answered. Enclose a Letter Stamp and we will send circular and sample of work by return mail.

Official Paper of the City.

Forever float that standard sheet—
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

From Vicksburg.

The new programme at Vicksburg is said to be an advance upon that place below the city, by way of the Big Black river, which is navigable by gunboats to the railroad crossing, twelve miles in the rear of Vicksburg, towards Jackson. The passage of another installment of Grant's army in the face of the Vicksburg batteries will give him a pretty large force to operate with on this route, and important news from that locality may be expected soon.

Cotton Speculations.

There is a military court of inquiry in session at this time at St. Louis, investigating the cotton speculations of our army officers. We do not see much of the testimony, but from stray scraps which reach us there can be no question that enormous frauds have been practiced, through the connivance of government officers. The principal seat of this corruption has been at Helena. It seems that government transports have been employed ever since Helena was occupied by federal troops for bringing in cotton and carrying supplies of clothing, salt, boots, shoes, &c., to the rebel planters. Two profits have thus been made, out of which somebody has grown enormously rich. Not only the transports, but soldiers have also been used to guard the plunder, and many have lost their lives in doing this duty. This illicit trade has been the cause of much of the delays in military operations on the Mississippi river. Vicksburg might have been ours ten months ago if it had not been for cotton. Those engaged in speculating in it did not want the war to close. They were anxious not to hurt the rebels, and opposed, villified and intrigued against those who did. The government was wheedled into the notion that cotton belonging to the rebels ought not to be destroyed but preserved to satisfy our "neutral" friends over the water. Hence trade in this article was permitted. When the speculators arrived on the ground, nothing could be done without the aid of army officers. The transports to carry cotton were under their control. The necessary guards to obtain cotton from the plantations in back country districts were subject to their orders. It was natural that officers with strong avarice in their hearts and little patriotism were found who yielded to the temptation of dividing these immense profits with the speculators. The governmental policy of saving cotton, instead of destroying it as should have been done, placed this temptation before their own officers and they fell into the snare. The exposure is now coming, if the court does not yield, but pushes the investigation with vigor and thoroughness. Who these officers are who have thus dishonored themselves and caused the death of thousands of brave soldiers, for filthy lucre, has not transpired. We trust, however, that the record will be fully made up, and that the country will one day know their names, and see them punished as they deserve, with the forfeit of their lives.

If the greed of acquiring wealth in speculations of this kind continues to follow our armies, it needs no prophet to tell the fate of this country. Corruption will finally bring on ruin. We must reform ourselves in this particular, and we trust that the investigation will not only expose the guilty, but that a radical change will be made by the government in dealing with rebel property, as well as with all those in its employ who neglect their military duties to gather wealth out of the misfortunes of the country.

Gen. Banks' Successes.

The news of the successful operations of Gen. Banks's forces in the Bayou Teche region near New Orleans, has been confirmed. The gunboats Queen of the West and Diana, recently captured by the rebels, are reported destroyed. The magazine on the Queen of the West was ignited by a shell by which the boat was blown up, and all on board were killed. The Diana, together with two other gunboats and ten steamboats were destroyed to prevent them from falling into the hands of the federal forces. Two successful engagements with the enemy had been fought, one at Bethel, where 10,000 rebels under Gen. Taylor were defeated, with a loss of 1500 prisoners, a large number killed, together with large stores of ammunition, horses and a thousand cattle. The prospects are that the rebels will all be driven out of the Opelous as country or captured.

MILITARY TREATMENT OF HOME REBELS.—Gen. Asboth, commading at Columbus, Ky., has ordered all persons at Cairo, and and vicinity to be arrested who in any manner express sympathy for rebels, or aid deserters. Such persons are to be forwarded to the military prison at Columbus. He says there can be no distinction recognized between rebels in battle and traitors resisting the laws at home.

A surgeon of the army at Murfreesboro, mentions horse radish as the article at present most needed by the soldiers.

From the Eighth Regiment.

CAMP IN THE FIELD NEAR VICKSBURG, On the La Shore, April 17th 1863.

Messrs. Editors:—I suppose long before you receive this you have heard of the great feat performed here last night by our fleet. For some days past large details of men from this army corps have been at work lashing cotton and hay bales to the sides of the gunboats and some transports, for the purpose of running the batteries at Vicksburg and Warrenton. All being in readiness, last night April 16th, about 11 o'clock the movement commenced, the iron vessels leading off from the mouth of the Yazoo and the transports following.—After steaming down some few miles the advance coming in range of the upper batteries at Vicksburg, the signal gun was fired and then in about five minutes one tremendous roar burst forth and the whole heavens seemed to be on fire. Battery after battery opened on the fleet—shell after shell burst around and on them. Solid shot plunged in the water around the boats and on the sides as if to crush them to peices, but on they went, passing battery after battery. All sorts of shot seemed to have been thrown—shell, hot shot and solid 200 pounders. For three hours the earth fairly trembled with the roar of cannon.

The fleet was under continual fire for a distance of twelve miles, and eight gunboats, and two large transports, the Forest Queen and Silver Wave, passed the batteries apparently unharmed. The transport Henry Clay met with different success. While passing the batteries she was set on fire by a shell from the rebel guns, and immediately the fire spread to such an extent that all hopes of saving her was useless, and consequently she was abandoned and floated down the river, illuminating it for miles, much to the benefit of the gunners on shore, but they seemed to improve it very poorly, for little damage was done to any other of the fleet. While passing the city our boats threw shot and shell in and set the city on fire, that also giving our gunners an opportunity of seeing the rebel batteries and training their guns accordingly. What damage the enemy received, of course I cannot say, but it was a great success on our side. Eight large iron gunboats and three transports started to run the batteries, a line that extends eight miles and bringing the entire fleet under fire a distance of twelve miles, and all got safely through except one transport. The loss of life was small, but one killed and three wounded.

It seems hard that after such a glorious success that the one killed should not have been spared to participate in the rejoicings of the many here. The object of running transports down is to cross troops below into Mississippi, to operate against Vicksburg below as well as above. You may say, how will they get provisions to them? Dont fear, we are opening a hole here to supply them through. We are not idle, I assure you. All are at work; 250 men out of each regiment daily are at work. The operations that are going on here, if I should tell, you could not publish them, and so I will not give particulars. All I have to say is we have a big job to do, and the job will be finished.

I will now tell you about the health of the troops here. It is good; very few sick. Only nine men in our regiment sick in hospital, and only two unable to take their guns and go into battle to-day, if necessary. We are now in Gen. Sherman's 15th army corps, the only Wisconsin regiment under Gen. Sherman's command. We are attached to the glorious old 2d brigade of the 3d division, and the brave general, late Col. Mower, of the 11th Mo., commands us. A truer patriot and braver man never lived.

I sent you the vote of this regiment on the night of the election. I see that fears are entertained that Cothren is elected. I think the soldiers will settle him. (Down with the traitors, up with the stars.) Bully for the stars! They shall yet wave in triumph over the sunny south, and on every sea. "I tell you, sirs, we will soon have the best of them here, for men that can run steamboats and gunboats cut through rebel's plantations, and even cotton fields, can do anything. I see a steamboat from the the tent I am writing in, that the ground she is floating over now, one week ago today I walked upon dry shod.

There is big firing going on below Vicksburg now. I suppose our boats are engaged with some of their lower batteries. I think I will close, for I have now occupied more of your time than I at first intended. Hoping, before you get this, that we may be walking the streets of Vicksburg under the folds of the old flag,

I am yours, &c.,

W. B. BRITTON,
8th Wis. Inf. Vol.

A CRY FOR BREAD OR PEACE IN MOBILE—A DEMAND FOR BLOOD THREATENED.—The New Orleans Era says that posters, of which the following is a copy, were posted up in the most public place of Mobile on the 6th inst. It is one of the unmistakable signs now becoming quite common, that the distress of the people in the rebellious states has reached a point that is almost unbearable:

"BREAD OR PEACE.

It has not yet come to be a question of bread or peace with us, but we are fast coming to it. If our government can compel a man with a family of children to fight for it at eleven dollars per month, it can compel, and must, those who stay at home and enjoy their ease now, and will enjoy our freedom when achieved, to feed the poor children of poor fathers—the widows, whose only sons are fighting the battles and enduring the terrible hardships of the march and camp, foodless, clothless and shoeless. Forbearance will soon cease to be a virtue.

Our wives, sisters, and little ones are crying for bread! Beware! lest they cry for *blood also!!* We have had enough of extortion and speculation; it is time the strong arm of the law was extended.

The people will rise sooner or later! There are lamp posts and rope enough to cure this worse than treason—and the remedy will be supplied by an outraged people! BRUTUS II.

A Kansas paper (making a joke of a grave matter) mentions a report that a man recently died a natural death in Jackson county, Missouri. It adds that the report needs confirmation.

Last Night's Report.

IN SIGHT OF VICKSBURG, April 19, Via Cairo, April 25.

Special to Chicago Tribune.—The battery on the levee opposite the city of Vicksburg is in full operation and working splendidly. For several days the guns have been trained upon the depot and public buildings. Yesterday a huge shell entered the large depot building and exploded, leveling the greater portion of it to the ground. The enemy have fired several shots in return, most of which struck the casemates but glanced off without doing any injury.

They deem their position impregnable, and for the last two days have maintained becoming reticence. Guns are now being placed to command the court house. There are reports that a division has been sent to Davis Plantation, opposite Carthage to oppose the landing of our troops.

A steamer goes into the canal at Duckport to-day, intending to reach New Carthage to morrow. The canal is voted a success. Nothing has been heard from the fleet which run the blockade a few days since.

Gen. Tuttle's division is at the entrance of the canal.

The general's health is, I regret to learn, not improving, and there are well grounded fears that he may be compelled to leave the field. He is still suffering from injuries received at Fort Donelson.

NEW YORK, April 26.

A dispatch from Memphis, dated the 23d, says six more transports have recently successfully run the blockade. They are the Tigress, Anglo Saxon, Empire City, Moderator, Cheeseman and Harrison. The casualties are not known.

PHILADELPHIA, April 25.

The Inquirer has intelligence to-day of an important arrest at Falmouth, at the headquarters of the army of the Potomac. The rebels have had some secret means of knowing everything that transpired within our lines, and such information was instantly conveyed to them. Gen. Patrick, provost marshal of the army, was determined that the secret should be brought to light.

The guards stationed along the river bank and situations favorable for signals, have been constantly enjoined to use the utmost care and watchfulness.

Yesterday their efforts were crowned with success. One of the guards in the town of Falmouth, stationed outside the dwelling adjoining the brick church, on the river bank, heard a clicking like that of a telegraph instrument. He advised his superior officer, and was directed to enter the house and investigate. This was done, and, on opening the door, he discovered a party of four or five persons, one of whom was seated at a telegraph instrument, sending messages by a submarine telegraph wire across the Rappahannock.

They were all arrested, and, as their offence is of extraordinary atrocity, a just and speedy punishment will doubtless be at once meted out to them. This punishment, according to law, is death by hanging.

MURFREESBORO, April 25.

The large numbers of refugees who have taken advantage of Gen. Reynold's appearance at McMinnville to leave Bragg's line, state that it is impossible to subsist. They quote flour at $80 per barrel, ladies shoes $35 per pair.

Cheatham is reported in command of Polk's corps. Hardee is strongly fortifying Shelbyville. The position is not difficult of approach from the north.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DISPATCHES.

NASHVILLE, April 24.

Special to Herald.—Several deserters report that 16,000 of the Vicksburg army had arrived at Tullahoma, reinforcing Bragg, and that they had been sent to Manchester. The report is to be received with caution, though the deserters confirm each other in their statements. They are vague and indefinite. It is known, however, that Bragg has occupied Manchester with a large army. Some deserters state that Kentucky, Tennessee and Missouri troops in Bragg's army have lately been very mutinous, and much trouble has been experienced in putting it down. The Tennesseeans laid down their arms, refusing to do duty.

Prominent citizens in Pennsylvania have proposed to Gen. Negley to nominate him on the republican ticket. Hale and Forney think Covode cannot be elected. It is understood that Negley will decline, as his whole heart is in the army.

HEADQUARTERS ARMY OF THE POTOMAC, April 26.

The enemy has increased his force along the heights back of Fredericksburg, and strengthened his pickets. The camps are much more numerous and their troops can be seen drilling at all hours of the day. No intelligence of importance has been received from the other side of late. Affairs remain quiet on the upper Rappahannock, though squads of rebel cavalry still prowl along the lines.

FAIRFAX COURT HOUSE, April 26.

James A. Williams, of Illinois, returning from visit to Loudon county, brings intelligence of Harvey Sherman, captured recently at Drainesville. Williams met Sherman on Friday the 17th, the day after he was reported hung, at a house three miles from Leesburg, towards Middlebury. He was under guard of three men and stopped there for breakfast. He was in the best of spirits. General Stahl is untiring in his efforts to capture the whole gang. Reports state that Masby's command is hovering about this place.

NEW YORK, April 27.

The Herald says, from Mexico we are in the receipt of official accounts up to the 31st of March inclusive, which throw quite a different aspect on state affairs there. From these it would appear that instead of the Mexicans having suffered a defeat, as published through French sources, they have repulsed their assailants before Puebla, and that the city still baffles French military skill and valor. Not being in receipt of anything positive through French channels since the 18th of April, leads to the supposition that the Mexicans have as yet been successful in their defense of Puebla, and that the French are as far from its capture as when they first invested it.

From the New Orleans Era of the 19th.

We are indebted to Kinney, the United States Vice Consul at Monterey, for the following:

U. S CONSULATE, MONTERRY, April 3d.

To the Editor of the Era:—A government express arrived here last night bringing news from Puebla of the repulse of the French forces, after three days fighting. I send you a Bulletin extra which contains official dispatches. As this goes by special express to Matamoras I have no time to make you any translations. This news is generally credited and is undoubtedly true in the main. M. M. KINNEY,
United States Vice Consul.

NEW YORK, April 27.

Correspondents from Key West by the Fulton is to the 21st. There were in port about 30 prize vessels whose cases were yet to be disposed of by the court, and almost every day added to their number. The gunboat Sagamore, during her cruise up the west coast had destroyed two blockade runners loaded with cotton and grain at Bay Port, after a sharp contest with the rebels.

WASHINGTON, April 26.

Special to the Tribune.—Official despatches received to-day from commanders of the navy and army before Vicksburg announce that another fleet had successfully passed the rebel batteries and joined that which passed through a week ago. Five hundred shots were fired at them, and almost every vessel was hit, but no gunboat was injured and only one transport sunk. The barges loaded with coal, of which there were a number, safely reached their destination.

Special to the world.—Secretary Seward, accompanied by several foreign ministers, left to-day for a visit to Fortress Monroe and other places of interest.

CAIRO, April 26.—11 P. M.

Special to the Tribune.—The steamer J. S. Hyatt arrived here this evening, having left Cape Girardeau at 3 p. m. She reports that a collision between the federals and the enemy occurred about 11 this a. m. The fighting continued two hours, when the enemy were repulsed. She brings no particulars. The women and children were taken five miles up the river and landed on the Illinois side.

AFTERNOON DISPATCHES.

NEW YORK, April 27.

Flour quiet and firm, 6,85a6,95 extra state, 7,20a730 r. h. Ohio. Wheat quiet and nominal, 1,35a1,60 Chicago spring, 1,63 Mil. club. Corn better, 90a91c sound, 83a89c unsound. Pork quiet. Whisky dull, 43a43½c.

The Tribune has official dates from Mexico April 1st. The reported loss of sixty pieces of artillery and 8,000 men by the French is untrue. The news brought via San Francisco is mainly correct. The French suffered several repulses at Puebla, but finally compelled the Mexicans to abandon Fort Sanfanier, but not till they removed all artillery and ammunition. To April 7th nothing favorable to the French reached Vera Cruz.

FORT MONROE, April 25.

Rumors have reached here that our pickets were driven in on the Nansemond, this forenoon. There were indications of more skirmishing in that direction.

NEW YORK, April 27.

Stocks active and higher, closing weak. Gold 53½.

American Topics in England.

THE LIVERPOOL CHAMBER OF COMMERCE ON THE ALABAMA.

At a special meeting of the Liverpool Chamber of Commerce, the following report was submitted from the committee, on the destruction of ships by the Alabama, and, after some debate was adopted:

"The committee having reconsidered the question refeared to it, together with the letter subsequently received from the New York Chamber of Commerce, begs leave to report that the building or equipping, in ports of this country, of such vessels as the Alabama, manifestly contravenes the intention of the foreign enlistment act, entitled, 'An act to prevent the enlisting and engagement of her majesty's subjects to serve in foreign service, and the fitting out or equipping, in her majesty's dominions, vessels for warlike purposes without her majesty's license.' That the provisions of the said act, according to the statement of the solicitor general, are susceptible of being easily evaded, which appears to be confirmed by the fact of the Alabama having evaded them, notwithstanding that her destination was reasonably suspected, and that the attention of our government was directed to her, while in the course of construction, with a view of having the act put in force against her whenever sufficient legal evidence should appear for doing so; that this alleged inefficiency of the act tends to expose our professions of neutrality to the charge of insincerity, and to establish a precedent which may at some future time be turned with harrassing effect against ourselves. That in consideration of the above evils, this committee is of the opinion that the Liverpool Chamber of Commerce should memoralize her majesty's government to endeavor, in concert with the goverment of the United States, to make such alteration in the foreign enlistment acts of both countries as shall seem best calculated to prevent systematic evasion, and restrain the citizens of those states from contravening the earnest desire of their respective governments to maintain, upon all occasions, a strict neutral attitude toward friendly powers who may happen to be belligerents; and that a copy of this report be transmitted to the New York Chamber of Commerce."

It was reported in Liverpool that government officials were making inquiries in that town in reference to the Alabama.

THE ALEXANDRA.

Although the "Broad Arrow" (the government mark) was placed on the gunboat Alexandra, when she was seized, the men continued to work on her. On the 9th, however, a telegram was received from the government, ordering that the work should cease, and that nothing should be removed. An official immediately went on board and turned off the men.

A legal investigation is to take place immediately.

TWO MORE GUNBOATS.

It is stated that the government had been in communication with Messrs. Laird, of Berkenhead, relative to two gunboats alleged to be building at their establishment for the confederates. Messrs. Laird, in reply, formally assured the government that they were being built for the Emperor of China.

THE JAPAN ALIAS VIRGINIA.

The steamer Japan, now called the Virginia, which sailed recently from the Clyde for a southern port, had several guns on board. She is a splendid model and was built by Denny Brothers, of Dumbarton.

EMIGRATION OF OPERATIVES.

A meeting had been held at Manchester to organize measures for assisting the unemployed operatives to emigrate. An influential committee was appointed, and a subscription was set on foot to carry out the movement.

Preachers do not often make somersaults from the pulpit, but on a recent Sunday evening in London, the pulpit of the Primitive Methodist Chapel, Williamson Terrace, Monkwearmouth, was occupied by a Hetton pitman, a local preacher. While leaning over the front of the pulpit, and delivering himself with much fervor, he suddenly overbalanced himself and came over into the singing pew. He appeared to fairly turn a somersault, carrying the bookboard over with him. Fortunately, no one happened to be sitting below, and the fallen orator came down with his broadside upon a music stand, shivering its timbers in a very complete manner. Rising to his feet with wonderful alacrity, he exclaimed, "Be calm people. I'm no worse; and, bless God! I believe if I'd fallen twice as far I should not have been killed.'

Throughout all the northwest the amount of ground devoted to spring wheat and oats this year, is greatly in excess of last. The price of help is not so high as it was feared it would be, and, should the summer and harvest time compare favorably with seed time, there will be an unexampled yield of grain this year.

ALL SORTS OF PARAGRAPHS.

Francis Burns, the colored Bishop of the Methodist Episcopal Church in Africa, died on Sunday last in Baltimore, where he arrived a few days previously. He had been a missionary in Africa since 1834.

The new ordnance foundry now in process of construction in Washington, will be 250 feet long and 70 broad, and requires 950,000 bricks to complete it, including the furnaces. It will contain one furnace of the capacity for melting sufficient metal to cast guns weighing 100,000 pounds and twelve others for casting ordinary cannon.

The shortest explanation of the Corcoran-Kimball affair down at Suffolk, Va., is proabbly whisky. That is the great curse of our army.

A heavy black frost prevailed in the states of North and South Carolina and Georgia, on the morning of the 1st of April. The mountains in western North Carolina were covered with snow. It is feared that the entire crop of early fruit, peaches, plums, &c., has been killed.

Mason Jones, the Irish orator, is speaking in Nashville, Tenn.

Admiral Dupont is a native of New Jersey, but for many years a citizen of Delaware. He entered the United States navy in December, 1815, over 47 years ago, and has served over 23 years at sea. In July last he was commissioned as rear admiral, and placed in command of the South Atlantic blockading squadron.

INFANTICIDE.—A most ludicrous incident transpired, the other day, which is too good to be kept. In a certain house in a fashionable locality, the census of the United States was being increased by just one, and the servant girl was dispatched to the counting-room of the father in prospective, to hasten him home. In her haste, the domestic entered the wrong store, and breathlessly informed the astonished clerks that their master (a jolly bachelor) *was a father*, Mrs. —— having just given birth to a fine boy.—*Chicago Journal.*

FIVE HUNDRED MILES IN ONE AND A HALF HOURS.—Some of the most distinguished engineers in France are said to have approved a plan for a railway from Paris to Marseilles, by which the journey, which now consumes eight hours, may be made in an hour and a half. The distance is five hundred and ten miles. The plan, being the hydraulic system, in which sliding is substituted for running on wheels, has been submitted to the Emperor for his approbation.

THE YAZOO PASS EXPEDITION.—A letter from Helena to the Philadelphia Press says, in reference to the Yazoo Pass expedition:

The expedition is so far a great success in this, that it has entirely destroyed all prospects for crops of any kind on the Yazoo Pass, on the Coldwater, and on the Tallahatchie. In addition to the above very important item, all the cotton, cotton gins, plantation houses and negro quarters; all the corn and all the cattle, and all the fences on these streams were utterly destroyed; besides, the rebel loss in killed, wounded and prisoners, and from desertion, was very considerable. Their loss, however, was in the very large amount of cotton they destroyed to keep us from getting it, and the loss of a great number of their negroes, who were brought out under the provisions of the President's proclamation, and in the complete demorilization of what were left. A portion of the negroes that the Yazoo Pass expedition caused to leave their masters, are now drilling at this point as federal soldiers.

The breaking of the levees in getting into the Yazoo Pass will destroy all the country adjacent to our route, and will render the whole upper portion of the state of Mississippi so sickly, that it will be impossible for their armies to remain in the localities we have just visited. The same may be said of all the Lake Providence country, and that of Vicksburg, and, in fact, of all the states on the Mississippi river—for the levees are broken from Memphis to New Orleans, and cannot be soon repaired, for the negroes won't work, and southern chivalry have to fight not only the Yankees, but starvation.

And Freedom's banner streaming o'er us!

From Vicksburg.

The new programme at Vicksburg is said to be an advance upon that place below the city, by way of the Big Black river, which is navigable by gunboats to the railroad crossing, twelve miles in the rear of Vicksburg, towards Jackson. The passage of another installment of Grant's army in the face of the Vicksburg batteries will give him a pretty large force to operate with on this route, and important news from that locality may be expected soon.

Cotton Speculations.

There is a military court of inquiry in session at this time at St. Louis, investigating the cotton speculations of our army officers. We do not see much of the testimony, but from stray scraps which reach us there can be no question that enormous frauds have been practiced, through the connivance of government officers. The principal seat of this corruption has been at Helena. It seems that government transports have been employed ever since Helena was occupied by federal troops for bringing in cotton and carrying supplies of clothing, salt, boots, shoes, &c., to the rebel planters. Two profits have thus been made, out of which somebody has grown enormously rich. Not only the transports, but soldiers have also been used to guard the plunder, and many have lost their lives in doing this duty. This illicit trade has been the cause of much of the delays in military operations on the Mississippi river. Vicksburg might have been ours ten months ago if it had not been for cotton. Those engaged in speculating in it did not want the war to close. They were anxious not to hurt the rebels, and opposed, villified and intrigued against those who did. The government was wheedled into the notion that cotton belonging to the rebels ought not to be destroyed but preserved to satisfy our "neutral" friends over the water. Hence trade in this article was permitted. When the speculators arrived on the ground, nothing could be done without the aid of army officers. The transports to carry cotton were under their control. The necessary guards to obtain cotton from the plantations in back country districts were subject to their orders. It was natural that officers with strong avarice in their hearts and little patriotism were found who yielded to the temptation of dividing these immense profits with the speculators. The governmental policy of saving cotton, instead of destroying it as should have been done, placed this temptation before their own officers and they fell into the snare. The exposure is now coming, if the court does not yield, but pushes the investigation with vigor and thoroughness. Who these officers are who have thus dishonored themselves and caused the death of thousands of brave soldiers, for filthy lucre, has not transpired. We trust, however, that the record will be fully made up, and that the country will one day know their names, and see them punished as they deserve, with the forfeit of their lives.

If the greed of acquiring wealth in speculations of this kind continues to follow our armies, it needs no prophet to tell the fate of this country. Corruption will finally bring on ruin. We must reform ourselves in this particular, and we trust that the investigation will not only expose the guilty, but that a radical change will be made by the government in dealing with rebel property, as well as with all those in its employ who neglect their military duties to gather wealth out of the misfortunes of the country.

Gen. Banks' Successes.

The news of the successful operations of Gen. Banks's forces in the Bayou Teche region near New Orleans, has been confirmed. The gunboats Queen of the West and Diana, recently captured by the rebels, are reported destroyed. The magazine on the Queen of the West was ignited by a shell by which the boat was blown up, and all on board were killed. The Diana, together with two other gunboats and ten steamboats were destroyed to prevent them from falling into the hands of the federal forces. Two successful engagements with the enemy had been fought, one at Bethel, where 10,000 rebels under Gen. Taylor were defeated, with a loss of 1500 prisoners, a large number killed, together with large stores of ammunition, horses and a thousand cattle. The prospects are that the rebels will all be driven out of the Opelousas as country or captured.

MILITARY TREATMENT OF HOME REBELS.—Gen. Asboth, commading at Columbus, Ky., has ordered all persons at Cairo, and and vicinity to be arrested who in any manner express sympathy for rebels, or aid deserters. Such persons are to be forwarded to the military prison at Columbus. He says there can be no distinction recognized between rebels in battle and traitors resisting the laws at home.

A surgeon of the army at Murfreesboro, mentions horse radish as the article at present most needed by the soldiers.

From the Eighth Regiment.

CAMP IN THE FIELD NEAR VICKSBURG, }
ON THE La. Shore, April 17th 1863. }

Messrs. Editors:—I suppose long before you receive this you have heard of the great feat performed here last night by our fleet. For some days past large details of men from this army corps have been at work lashing cotton and hay bales to the sides of the gunboats and some transports, for the purpose of running the batteries at Vicksburg and Warrenton. All being in readiness, last night April 16th, about 11 o'clock the movement commenced, the iron vessels leading off from the mouth of the Yazoo and the transports following.—After steaming down some few miles the advance coming in range of the upper batteries at Vicksburg, the signal gun was fired and then in about five minutes one tremendous roar burst forth and the whole heavens seemed to be on fire. Battery after battery opened on the fleet—shell after shell burst around and on them. Solid shot plunged in the water around the boats and on the sides as if to crush them to peices, but on they went, passing battery after battery. All sorts of shot seemed to have been thrown—shell, hot shot and solid 200 pounders. For three hours the earth fairly trembled with the roar of cannon.

The fleet was under continual fire for a distance of twelve miles, and eight gunboats, and two large transports, the Forest Queen and Silver Wave, passed the batteries apparently unharmed. The transport Henry Clay met with different success. While passing the batteries she was set on fire by a shell from the rebel guns, and immediately the fire spread to such an extent that all hopes of saving her was useless, and consequently she was abandoned and floated down the river, illuminating it for miles, much to the benefit of the gunners on shore, but they seemed to improve it very poorly, for little damage was done to any other of the fleet. While passing the city our boats threw shot and shell in and set the city on fire, that also giving our gunners an opportunity of seeing the rebel batteries and training their guns accordingly. What damage the enemy received, of course I cannot say, but it was a great success on our side. Eight large iron gunboats and three transports started to run the batteries, a line that extends eight miles and bringing the entire fleet under fire a distance of twelve miles, and all got safely through except one transport. The loss of life was small, but one killed and three wounded.

It seems hard that after such a glorious success that the one killed should not have been spared to participate in the rejoicings of the many here. The object of running transports down is to cross troops below into Mississippi, to operate against Vicksburg below as well as above. You may say, how will they get provisions to them? Dont fear, we are opening a hole here to supply them through. We are not idle, I assure you. All are at work; 250 men out of each regiment daily are at work. The operations that are going on here, if I should tell, you could not publish them, and so I will not give particulars. All I have to say is we have a big job to do, and the job will be finished.

I will now tell you about the health of the troops here. It is good; very few sick. Only nine men in our regiment sick in hospital, and only two unable to take their guns and go into battle to-day, if necessary. We are now in Gen. Sherman's 15th army corps, the only Wisconsin regiment under Gen. Sherman's command. We are attached to the glorious old 2d brigade of the 3d division, and the brave general, late Col. Mower, of the 11th Mo., commands us. A truer patriot and braver man never lived.

I sent you the vote of this regiment on the night of the election. I see that fears are entertained that Cothren is elected. I think the soldiers will settle him. (Down with the traitors, up with the stars.) Bully for the stars! They shall yet wave in triumph over the sunny south, and on every sea. "I tell you, sire, we will soon have the best of them here, for men that can run steamboats and gunboats out through rebel's plantations, and even cotton fields, can do anything. I see a steamboat from the the tent I am writing in, that the ground she is floating over now, one week ago today I walked upon dry shod.

There is big firing going on below Vicksburg now. I suppose our boats are engaged with some of their lower batteries. I think I will close, for I have now occupied more of your time than I at first intended. Hoping, before you get this, that we may be walking the streets of Vicksburg under the folds of the old flag,

I am yours, &c.,

A CRY FOR BREAD OR PEACE IN MOBILE.—A DEMAND FOR BLOOD THREATENED.—The New Orleans Era says that posters, of which the following is a copy, were posted up in the most public place of Mobile on the 6th inst. It is one of the unmistakable signs now becoming quite common, that the distress of the people in the rebellious states has reached a point that is almost unbearable:

"BREAD OR PEACE.

It has not yet come to be a question of bread or peace with us, but we are fast coming to it. If our government can compel a man with a family of children to fight for it at eleven dollars per month, it can compel, and must, those who stay at home and enjoy their ease now, and will enjoy our freedom when achieved, to feed the poor children of poor fathers—the widows, whose only sons are fighting the battles and enduring the terrible hardships of the march and camp, foodless, clothless and shoeless. Forbearance will soon cease to be a virtue.

Our wives, sisters, and little ones are crying for bread! Beware! lest they cry for *blood also!!* We have had enough of extortion and speculation; it is time the strong arm of the law was extended.

The people will rise sooner or later! There are lamp posts and rope enough to cure this worse than treason—and the remedy will be supplied by an outraged people! BRUTUS II.

A Kansas paper (making a joke of a grave matter) mentions a report that a man recently died a natural death in Jackson county, Missouri. It adds that the report needs confirmation.

Last Night's Report.

IN SIGHT OF VICKSBURG, April 19, }
Via Cairo, April 25. }

Special to Chicago Tribune.—The battery on the levee opposite the city of Vicksburg is in full operation and working splendidly. For several days the guns have been trained upon the depot and public buildings. Yesterday a huge shell entered the large depot building and exploded, leveling the greater portion of it to the ground. The enemy have fired several shots in return, most of which struck the casemates but glanced off without doing any injury.

They deem their position impregnable, and for the last two days have maintained becoming reticence. Guns are now being placed to command the court house. There are reports that a division has been sent to Davis Plantation, opposite Carthage to oppose the landing of our troops.

A steamer goes into the canal at Duckport to-day, intending to reach New Carthage to-morrow. The canal is voted a success. Nothing has been heard from the fleet which run the blockade a few days since.

Gen. Tuttle's division is at the entrance of the canal.

The general's health is, I regret to learn, not improving, and there are well grounded fears that he may be compelled to leave the field. He is still suffering from injuries received at Fort Donelson.

NEW YORK, April 26.

A dispatch from Memphis, dated the 23d, says six more transports have recently successfully run the blockade. They are the Tigress, Anglo Saxon, Empire City, Moderator, Cheeseman and Harrison. The casualties are not known.

PHILADELPHIA, April 25.

The Inquirer has intelligence to-day of an important arrest at Falmouth, at the headquarters of the army of the Potomac. The rebels have had some secret means of knowing everything that transpired within our lines, and such information was instantly conveyed to them. Gen. Patrick, provost marshal of the army, was determined that the secret should be brought to light.

The guards stationed along the river bank and situations favorable for signals, have been constantly enjoined to use the utmost care and watchfulness.

Yesterday their efforts were crowned with success. One of the guards in the town of Falmouth, stationed outside the dwelling adjoining the brick church, on the river bank, heard a clicking like that of a telegraph instrument. He advised his superior officer, and was directed to enter the house and investigate. This was done, and, on opening the door, he discovered a party of four or five persons, one of whom was seated at a telegraph instrument, sending messages by a submarine telegraph wire across the Rappahannock.

They were all arrested, and, as their offence is of extraordinary atrocity, a just and speedy punishment will doubtless be at once meted out to them. This punishment, according to law, is death by hanging.

MURFREESBORO, April 25.

The large numbers of refugees who have taken advantage of Gen. Reynold's appearance at McMinnville to leave Bragg's line, state that it is impossible to subsist. They quote flour at $80 per barrel, ladies shoes $35 per pair.

Cheatham is reported in command of Polk's corps. Hardee is strongly fortifying Shelbyville. The position is not difficult of approach from the north.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DISPATCHES.

NASHVILLE, April 24.

Special to Herald.—Several deserters report that 16,000 of the Vicksburg army had arrived at Tullahoma, reinforcing Bragg, and that they had been sent to Manchester. The report is to be received with caution, though the deserters confirm each other in their statements. They are vague and indefinite. It is known, however, that Bragg has occupied Manchester with a large army. Some deserters state that Kentucky, Tennessee and Missouri troops in Bragg's army have lately been very mutinous, and much trouble has been experienced in putting it down. The Tennesseeans laid down their arms, refusing to do duty.

Prominent citizens in Pennsylvania have proposed to Gen. Negley to nominate him on the republican ticket. Hale and Forney think Covode cannot be elected. It is understood that Negley will decline, as his whole heart is in the army.

HEADQUARTERS ARMY OF THE POTOMAC, April 26.

The enemy has increased his force along the heights back of Fredericksburg, and strengthened his pickets. The camps are much more numerous and their troops can be seen drilling at all hours of the day. No intelligence of importance has been received from the other side of late. Affairs remain quiet on the upper Rappahannock, though squads of rebel cavalry still prowl along the lines.

FAIRFAX COURT HOUSE, April 26.

James A. Williams, of Illinois, returning from visit to Loudon county, brings intelligence of Harvey Sherman, captured recently at Drainesville. Williams met Sherman on Friday the 17th, the day after he was reported hung, at a house three miles from Leesburg, towards Middlebury. He was under guard of three men and stopped there for breakfast. He was in the best of spirits. General Stahl is untiring in his efforts to capture the whole gang. Reports state that Masby's command is hovering about this place.

NEW YORK, April 27.

The Herald says, from Mexico we are in the receipt of official accounts up to the 31st of March inclusive, which throw quite a different aspect on state affairs there. From these it would appear that instead of the Mexicans having suffered a defeat, as published through French sources, they have repulsed their assailants before Puebla, and that the city still baffles French military skill and valor. Not being in receipt of anything positive through French channels since the 18th of April, leads to the supposition that the Mexicans have as yet been successful in their defense of Puebla, and that the French are as far from its capture as when they first invested it.

From the New Orleans Era of the 19th.

We are indebted to Kinney, the United States Vice Consul at Monterey, for the following:

U. S CONSULATE, MONTEREY, April 3d.

To the Editor of the Era:—A government express arrived here last night bringing news from Puebla of the repulse of the French forces, after three days fighting. I send you a Bulletin extra which contains official dispatches. As this goes by special express to Matamoras I have no time to make you any translations. This news is generally credited and is undoubtedly true in the main. M. M. KINNEY,
United States Vice Consul.

NEW YORK, April 27.

Correspondents from Key West by the Fulton is to the 21st. There were in port about 30 prize vessels whose cases were yet to be disposed of by the court, and almost every day added to their number. The gunboat Sagamore, during her cruise up the west coast had destroyed two blockade runners loaded with cotton and grain at Bay Port, after a sharp contest with the rebels.

WASHINGTON, April 26.

Special to the Tribune.—Official despatches received to-day from commanders of the navy and army before Vicksburg announce that another fleet had successfully passed the rebel batteries and joined that which passed through a week ago. Five hundred shots were fired at them, and almost every vessel was hit, but no gunboat was injured and only one transport sunk. The barges loaded with coal, of which there were a number, safely reached their destination.

Special to the world.—Secretary Seward, accompanied by several foreign ministers, left to-day for a visit to Fortress Monroe and other places of interest.

CAIRO, April 26.—11 P. M.

Special to the Tribune.—The steamer J. S. Hyatt arrived here this evening, having left Cape Girardeau at 3 p. m. She reports that a collision between the federals and the enemy occurred about 11 this a. m. The fighting continued two hours, when the enemy were repulsed. She brings no particulars. The women and children were taken five miles up the river and landed on the Illinois side.

AFTERNOON DISPATCHES.

NEW YORK, April 27.

Flour quiet and firm, 6,85a6,95 extra state, 7,20a730 r. h. Ohio. Wheat quiet and nominal, 1,35a1,60 Chicago spring, 1,63 Mil. club. Corn better, 90a91c sound, 83a89c unsound. Pork quiet. Whisky dull, 43a43½c.

The Tribune has official dates from Mexico April 1st. The reported loss of sixty pieces of artillery and 8,000 men by the French is untrue. The news brought via San Francisco is mainly correct. The French suffered several repulses at Puebla, but finally compelled the Mexicans to abandon Fort Sanfanier, but not till they removed all artillery and ammunition. To April 7th nothing favorable to the French reached Vera Cruz.

FORT MONROE, April 25.

Rumors have reached here that our pickets were driven in on the Nansemond, this forenoon. There were indications of more skirmishing in that direction.

NEW YORK, April 27.

THE LIVERPOOL CHAMBER OF COMMERCE ON THE ALABAMA.

At a special meeting of the Liverpool Chamber of Commerce, the following report was submitted from the committee, on the destruction of ships by the Alabama, and, after some debate was adopted:

"The committee having reconsidered the question refeared to it, together with the letter subsequently received from the New York Chamber of Commerce, begs leave to report that the building or equipping, in ports of this country, of such vessels as the Alabama, manifestly contravenes the intention of the foreign enlistment act, entitled, 'An act to prevent the enlisting and engagement of her majesty's subjects to serve in foreign service, and the fitting out or equipping, in her majesty's dominions, vessels for warlike purposes without her majesty's license.' That the provisions of the said act, according to the statement of the solicitor general, are susceptible of being easily evaded, which appears to be confirmed by the fact of the Alabama having evaded them, notwithstanding that her destination was reasonably suspected, and that the attention of our government was directed to her, while in the course of construction, with a view of having the act put in force against her whenever sufficient legal evidence should appear for doing so; that this alleged inefficiency of the act tends to expose our professions of neutrality to the charge of insincerity, and to establish a precedent which may at some future time be turned with harrassing effect against ourselves. That in consideration of the above evils, this committee is of the opinion that the Liverpool Chamber of Commerce should memoralize her majesty's government to endeavor, in concert with the goverment of the United States, to make such alteration in the foreign enlistment acts of both countries as shall seem best calculated to prevent systematic evasion, and restrain the citizens of those states from contravening the earnest desire of their respective governments to maintain, upon all occasions, a strict neutral attitude toward friendly powers who may happen to be belligerents; and that a copy of this report be transmitted to the New York Chamber of Commerce."

It was reported in Liverpool that government officials were making inquiries in that town in reference to the Alabams.

THE ALEXANDRA.

Although the "Broad Arrow" (the government mark) was placed on the gunboat Alexandra, when she was seized, the men continued to work on her. On the 9th, however, a telegram was received from the government, ordering that the work should cease, and that nothing should be removed. An official immediately went on board and turned off the men.

A legal investigation is to take place immediately.

TWO MORE GUNBOATS.

It is stated that the government had been in communication with Messrs. Laird, of Berkenhead, relative to two gunboats alleged to be building at their establishment for the confederates. Messrs. Laird, in reply, formally assured the government that they were being built for the Emperor of China.

THE JAPAN ALIAS VIRGINIA.

The steamer Japan, now called the Virginia, which sailed recently from the Clyde for a southern port, had several guns on board. She is a splendid model and was built by Denny Brothers, of Dumbarton.

EMIGRATION OF OPERATIVES.

A meeting had been held at Manchester to organize measures for assisting the unemployed operatives to emigrate. An influential committee was appointed, and a subscription was set on foot to carry out the movement.

Preachers do not often make somersaults from the pulpit, but on a recent Sunday evening in London, the pulpit of the Primitive Methodist Chapel, Williamson Terrace, Monkwearmouth, was occupied by a Hetton pitman, a local preacher. While leaning over the front of the pulpit, and delivering himself with much fervor, he suddenly overbalanced himself and came over into the singing pew. He appeared to fairly turn a somersault, carrying the bookboard over with him. Fortunately, no one happened to be sitting below, and the fallen orator came down with his broadside upon a music stand, shivering its timbers in a very complete manner. Rising to his feet with wonderful alacrity, he exclaimed, "Be calm people. I'm no worse; and, bless God! I believe if I'd fallen twice as far I should not have been killed.'

Throughout all the northwest the amount of ground devoted to spring wheat and oats this year, is greatly in excess of last. The price of help is not so high as it was feared it would be, and, should the summer and harvest time compare favorably with seed time, there will be an unexampled yield of grain this year.

The new ordnance foundry now in process of construction in Washington, will be 250 feet long and 70 broad, and requires 950,000 bricks to complete it, including the furnaces. It will contain one furnace of the capacity for melting sufficient metal to cast guns weighing 100,000 pounds and twelve others for casting ordinary cannon.

The shortest explanation of the Corcoran-Kimball affair down at Suffolk, Va., is proabbly whisky. That is the great curse of our army.

A heavy black frost prevailed in the states of North and South Carolina and Georgia, on the morning of the 1st of April. The mountains in western North Carolina were covered with snow. It is feared that the entire crop of early fruit, peaches, plums, &c., has been killed.

Mason Jones, the Irish orator, is speaking in Nashville, Tenn.

Admiral Dupont is a native of New Jersey, but for many years a citizen of Delaware. He entered the United States navy in December, 1815, over 47 years ago, and has served over 23 years at sea. In July last he was commissioned as rear admiral, and placed in command of the South Atlantic blockading squadron.

INFANTICIDE.—A most ludicrous incident transpired, the other day, which is too good to be kept. In a certain house in a fashionable locality, the census of the United States was being increased by just one, and the servant girl was dispatched to the counting-room of the father in prospective, to hasten him home. In her haste, the domestic entered the wrong store, and breathlessly informed the astonished clerks that their master (a jolly bachelor) *was a father*, Mrs. —— having just given birth to a fine boy.—*Chicago Journal.*

FIVE HUNDRED MILES IN ONE AND A HALF HOURS.—Some of the most distinguished engineers in France are said to have approved a plan for a railway from Paris to Marseilles, by which the journey, which now consumes eight hours, may be made in an hour and a half. The distance is five hundred and ten miles. The plan, being the hydraulic system, in which sliding is substituted for running on wheels, has been submitted to the Emperor for his approbation.

THE YAZOO PASS EXPEDITION.—A letter from Helena to the Philadelphia Press says, in reference to the Yazoo Pass expedition:

The expedition is so far a great success in this, that it has entirely destroyed all prospects for crops of any kind on the Yazoo Pass, on the Coldwater, and on the Tallahatchie. In addition to the above very important item, all the cotton, cotton gins, plantation houses and negro quarters; all the corn and all the cattle, and all the fences on these streams were utterly destroyed; besides, the rebel loss in killed, wounded and prisoners, and from desertion, was very considerable. Their loss, however, was in the very large amount of cotton they destroyed to keep us from getting it, and the loss of a great number of their negroes, who were brought out under the provisions of the President's proclamation, and in the complete demorilization of what were left. A portion of the negroes that the Yazoo Pass expedition caused to leave their masters, are now drilling at this point as federal soldiers.

The breaking of the levees in getting into the Yazoo Pass will destroy all the country adjacent to our route, and will render the whole upper portion of the state of Mississippi so sickly, that it will be impossible for their armies to remain in the localities we have just visited. The same may be said of all the Lake Providence country, and that of Vicksburg, and, in fact, of all the states on the Mississippi river—for the levees are broken from Memphis to New Orleans, and cannot be soon repaired, for the negroes won't work, and southern chivalry have to fight not only the Yankees, but starvation.

12d By order of the President.

A Card.

TO THE PICTURE PUBLIC.—The photographers of this city take this method to inform their patrons and the public, that owing to the great advance in photographic material, which is from 100 to 300 per cent. on most articles used, and finding it impossible to live and do justice to the art at former low prices, have agreed to an advance of about 25 per cent. on former rates, thus enabling them to carry out their determination to investigate and adopt all new improvements. Trusting this will meet the approbation of their patrons, they are respectfully,

J. A. TICE,
FORESTER CLARK,
S. F. THOMPSON.
d2d. E. N. SHAW.

CHRIST CHURCH.—Bishop Kemper will administer the rite of confirmation in Christ Church to-morrow (Tuesday) evening, services to commence at 7½ o'clock. The Lord's Supper will also be administered. There will be services in this church on Thursday (Fast-day) at the usual hours of divine service on Sunday. It is hoped these services will be well attended.

My store will be closed on Thursday, April 30th, the day appointed by the President as a day of fasting, humiliation and prayer. [ap21d2d] O. K. BENNETT.

FAST DAY.—We are informed that the jewelry stores of Messrs. Webb and Denell will be closed next Thursday, in accordance with the recommendation of the President.

WISCONSIN STATE BONDS SOLD.—Fifty thousand dollars of Wisconsin state bonds, in aid of the capitol extension, were taken on Saturday at par by the Dane County Bank. A bid offering one-half per cent. premium was not received till after the sale.

THE 33d AT HERNANDO.—We have a rumor here, to-day, by a returned soldier, that the 33d regiment was engaged in the late fight at Hernando, Miss., and that Major Virgin and a number of others in the regiment were killed.

CAPE GIRADEAU ATTACKED.—A large force of rebels, said to be under the command of Price, attacked Cape Girardeau on Saturday, and were repulsed. The place is forty miles above Cairo on the river. Our forces there have the aid of the gunboats.

THE MINNESOTA INDIAN WAR.—We had another call to-day from Lewis Hendrick, the Stockbridge Indian who called upon us a few days since, and he represents that he was in company with an Indian from Minnesota on Thursday, whom he took to be a scout or spy. He said he was a full-blooded Indian, with the Sioux and Chippewa blood about equally mixed in him. He was dressed in citizen's clothes, could speak English, and could understand himself well. He had a plenty of money, and spent it freely, and Mr. Hendricks thinks his object in coming here was to recruit for the coming Indian war in Minnesota.

Mr. Hendrick had considerable conversation with him, and from what he could learn, he believes it is the intention of the Sioux to strike on or about the 1st of May. It is also thought that the Chippewas may ultimately be induced to join with them, as they are now in council together. The attack will be made upon both the garrisons and upon settlers, and Little Crow, the war chief of the Sioux, has about 10,000 warriors upon whom he represents he can depend.

We give Mr. Hendrick's statement simply as he laid it before us, without lending it any indorsement, further than to say that he has with him good letters, and makes the most plausible representations.—*Wisconsin.*

The Charleston Courier impresses its readers with the importance of producing something to eat, in the following aphoristical utterance:

"One grain of corn in the earth is as a bullet in the heart of a Yankee; and a ridge of potatoes is worth any mile of breastworks from Vicksburg to the Rappahannock."

Corn and potatoes will doubtless make a good fight, but we prefer planting cannon.—*Louisville Journal.*

GENERAL ORDER No. 1.

TO THE PEOPLE OF WISCONSIN.

The best bought, best selected, best assorted and most extensive stock of

DRY GOODS

ever offered in Janesville, is now open to

PUBLIC INSPECTION

at the

Great Mart of McKey & Bro.

WE have taken advantage of the recent unparalleled fall in the price of gold, E. McKey having resided almost exclusively in New York for the past three months, was on hand and

BOUGHT LARGELY

of first class importers, who, under the influence of the panic,

Sacrificed Many Desirable Goods

at 50 cents on the dollar of the prices ruling one week previous. The public is aware that the cause of the great advance in the price of Imported Goods was the enormous premium on gold, to buy exchange and pay duties; that having declined from 74 to 34 per cent, or about 50 per cent on former rates, and we having been on the spot when it took place, went in for

Piles of Goods,

the purchase of one of which would Gobble up the entire resources of many of the so-called Merchants who Blow, Hurrah and Clap their hands before the public.

But we believe that sensation advertisements are played out, and that it is scarcely necessary to inform the public that those who are compelled to buy goods in small lot, and live as it were from hand to mouth, cannot pretend to

COMPETE WITH US!

In proof of which we offer the following:

200 ps full yd wide New York E Sheeting, 30c per yd,
200 ps Portsmouth unbleached factory, 25c "
500 ps Spring DeLaines, 25c "
500 ps new Spring DeLaines, 21½c "
300 Balmoral Skirts, 4 yds wide, 1¼ yds long, $2 50.
100 ps A T Stewart fine print'd French Jaconets, 31½c"

200 Ps Fine French Organdies at 25c per yd,

which were bought under peculiar circumstances, the same quality having been sold at wholesale last week in New York at 44c per yard. None of the above will be sold to neighboring speculators; our legitimate trade alone supplied.

Our purchases of nearly a year ago were so enormous that we still

HAVE MANY PACKAGES

of heavy and fine bleached and unbleached Sheetings and Shirtings, Merrimac, Spragues and other Prints, Shirtings, Stripes, Tickings, Denims, Cottonades for Summer wear, &c., &c., all of which we will now open and dispose of at prices which will make the small fry stand aside, and still further add to the Brilliant and Triumphant success which has crowned our efforts for the last fourteen years.

We shall still sell our justly celebrated and superior

HOOP SKIRTS

at old prices. Our stock of

Hosiery, Gloves & Embroideries

will be found the largest and most comprehensive in the state. Ladies will here find a full line of hand made Tatting, all widths. Collerette a La Eugene, Bordure Imperatrice, Linen Collars, plain and with ruffled, embroidered, colored and mourning trimming.

IN CLOAKINGS AND SACKINGS

We shall exhibit 100 pieces Middlesex and Washington all wool, most desirable shades, plain and mixed. Our stock of all wool, silk warp and domett

We clo so out from one of the heaviest importers in New York, 600 pieces heavy

GERMAN REPPS,

worth 50c per yard, which to those who buy to keep over, or for immediate wear, we offer as a drive at 25c per yard.

In Our Millinery Department

will be found everything desirable, choice and new, in Bonnetts and Flats of the fashionable Eugene, Alexandrina and Albani styles; 1200 dozen best made of

SHAKER HOODS,

white and colored, all sizes. Buches, black, white and magnifo; new style frames; crown lining; cape lace; fine French flowers, rose buds, &c., &c. The usual liberal inducements to the trade.

CENT'S GARMENTS.

We have also a well selected line of Harris, Woodstock and other well known brands of

DR. SWEET'S
Infallible Liniment,
THE
GREAT EXTERNAL REMEDY,

FOR RHEUMATISM, GOUT, NEURALGIA, LUMBAGO, STIFF NECK AND JOINTS, SPRAINS, BRUISES, CUTS AND WOUNDS, PILES, HEADACHE, AND ALL RHEUMATIC AND NERVOUS DISORDERS.

For all which it is a speedy and certain remedy, and never fails. The Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN, it is unrivaled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used it has never been known to fail.

FOR NEURALGIA, it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY AND GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES—As an external remedy, we claim that it is the *best* known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical cure.*

QUINSEY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of DR. SWEET'S INFALLIBLE LINIMENT, when used according to directions. Also, CHILBLAINS, FROSTED FEET, AND INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative properties of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the Signature and Likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine.

A Card.

To the Picture Public.—The photographers of this city take this method to inform their patrons and the public, that owing to the great advance in photographic material, which is from 100 to 300 per cent. on most articles used, and finding it impossible to live and do justice to the art at former low prices, have agreed to an advance of about 25 per cent. on former rates, thus enabling them to carry out their determination to investigate and adopt all new improvements. Trusting this will meet the approbation of their patrons, they are respectfully,

J. A. TICE,
FORESTER CLARK.
S. F. THOMPSON.
d2d. E. N. SHAW.

Christ Church.—Bishop Kemper will administer the rite of confirmation in Christ Church to-morrow (Tuesday) evening, services to commence at 7½ o'clock. The Lord's Supper will also be administered. There will be services in this church on Thursday (Fast-day) at the usual hours of divine service on Sunday. It is hoped these services will be well attended.

My store will be closed on Thursday, April 30th, the day appointed by the President as a day of fasting, humiliation and prayer. [ap21d2d] O. K. Bennett.

Fast Day.—We are informed that the jewelry stores of Messrs. Webb and Denell will be closed next Thursday, in accordance with the recommendation of the President.

Wisconsin State Bonds Sold.—Fifty thousand dollars of Wisconsin state bonds, in aid of the capitol extension, were taken on Saturday at par by the Dane County Bank. A bid offering one-half per cent. premium was not received till after the sale.

The 33d at Hernando.—We have a rumor here, to-day, by a returned soldier, that the 33d regiment was engaged in the late fight at Hernando, Miss., and that Major Virgin and a number of others in the regiment were killed.

Cape Girardeau Attacked.—A large force of rebels, said to be under the command of Price, attacked Cape Girardeau on Saturday, and were repulsed. The place is forty miles above Cairo on the river. Our forces there have the aid of the gunboats.

The Minnesota Indian War.—We had another call to-day from Lewis Hendrick, the Stockbridge Indian who called upon us a few days since, and he represents that he was in company with an Indian from Minnesota on Thursday, whom he took to be a scout or spy. He said he was a full-blooded Indian, with the Sioux and Chippewa blood about equally mixed in him. He was dressed in citizen's clothes, could speak English, and could understand himself well. He had a plenty of money, and spent it freely, and Mr. Hendricks thinks his object in coming here was to recruit for the coming Indian war in Minnesota.

Mr. Hendrick had considerable conversation with him, and from what he could learn, he believes it is the intention of the Sioux to strike on or about the 1st of May. It is also thought that the Chippewas may ultimately be induced to join with them, as they are now in council together. The attack will be made upon both the garrisons and upon setters, and Little Crow, the war chief of the Sioux, has about 10,000 warriors upon whom he represents he can depend.

We give Mr. Hendrick's statement simply as he laid it before us, without lending it any indorsement, further than to say that he has with him good letters, and makes the most plausible representations.—*Wisconsin.*

The Charleston Courier impresses its readers with the importance of producing something to eat, in the following aphoristical utterance:

"One grain of corn in the earth is as a bullet in the heart of a Yankee; and a ridge of potatoes is worth any mile of breastworks from Vicksburg to the Rappahannock."

Corn and potatoes will doubtless make a good fight, but we prefer planting cannon.—*Louisville Journal.*

TO THE PEOPLE OF WISCONSIN.

The best bought, best selected, best assorted and most extensive stock of

PUBLIC INSPECTION

at the

Great Mart of McKey & Bro.

WE have taken advantage of the recent unparalleled fall in the price of gold, E. McKey having resided almost exclusively in New York for the past three months, was on hand and

BOUGHT LARGELY

of first class importers, who, under the influence of the panic,

Sacrificed Many Desirable Goods

at 60 cents on the dollar of the prices ruling one week previous. The public is aware that the cause of the great advance in the price of Imported Goods was the the enormous premium on gold, to buy exchange and pay duties: that having declined from 74 to 38 per cent, or about 50 per cent on former rates, and we having been on the spot when it took place, went in for

Piles of Goods,

the purchase of one of which would Gobble up the entire resources of many of the so-called Merchants who Blow, Hurrah and Clap their hands before the public. But we believe that occasion advertisements are played out, and that it is scarcely necessary to inform the public that those who are compelled to buy goods in small lot, and live as it were from hand to mouth, cannot pretend to

COMPETE WITH US!

In proof of which we offer the following:

100 ps A T Stewart fine print'd French Jaconets, 31½c"

200 Ps Fine French Organdies at 25c per yd,

which were bought under peculiar circumstances, the same quality having been sold at wholesale last week in New York at 44cper yard. None of the above will be sold to neighboring speculators; our legitimate trade alone supplied.

DR. SWEET'S
Infallible Liniment,

THE

GREAT EXTERNAL REMEDY,

FOR RHEUMATISM, GOUT, NEURALGIA, LUMBAGO, STIFF NECK AND JOINTS, SPRAINS, BRUISES, CUTS AND WOUNDS, PILES, HEADACHE, AND ALL RHEUMATIC AND NERVOUS DISORDERS.

For all which it is a speedy and certain remedy, and never fails. The Liniment is prepared from the recipe of Dr. Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN, it is unrivaled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used it has never been known to fail.

FOR NEURALGIA, it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of HEADACHE in three minutes and is warranted to do it.

TOOTHACHE also will it cure instantly.

FOR NERVOUS DEBILITY AND GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy. Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the *best* known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical cure.*

QUINSEY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS, BURNS AND SCALDS, yield readily to the wonderful healing properties of DR. SWEET'S INFALLIBLE LINIMENT, when used according to directions. Also, CHILBLAINS, FROSTED FEET, AND INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative properties of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the Signature and Likeness of Dr. Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine.

SINGER & CO.'S

STANDARD MACHINES

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $70.

Singer's Letter A Machine,

IS the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn *all persons using our machines not to buy any others.* We know that there are needles sold *of the most inferior quality,* at higher prices than we charge for the best. The needles sold by us are manufactured *especially for* our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the [illegible]

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal and finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us,* will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

SOUTH FIRST STREET.

Specifications for Grading, Paving Gutters and building Crosswalks on South First Street, between Main Street and Jackman Street in the Third Ward.

GRADING.—The road bed will be 30 feet in width between the paving of the gutters, and the center line of the road bed will be 18 inches above the bottom of the gutters. The road bed when completed will be crowning and uniform in surface, rising regularly from the bottom of the gutters to said center line. The grading will be estimated by the cubic yard in excavation, nothing being allowed for earth in embankment, surfacing, &c.

The material for embankment will be taken, first, from the sides of the road and in such manner as to form the gutters and a grade for sidewalks.

And, secondly, from the excavation to be made in the line of the road.

When the haul does not exceed 300 feet it will be estimated simply as earth in excavation, and bids must be made for the cubic yard, for every 100 feet over 300 feet.

The material for the road bed is to be earth and clay and no sand or gravel to be used.

GUTTERS.—*The gutters, one on each side of said street are to be six feet in width at the top and eight inches in depth at the lowest point.*

The gutters will be paved with good sound stone eight inches in width and placed upon their edges, and laid upon sand and gravel, and in such manner as to form a curved channel for the water. The shape of the gutters and the manner of laying the outside courses of stone, will be such as the aldermen of said ward may direct. The paving will be estimated by the lineal foot, which will include preparing bed for the stone, laying stone, hauling and furnishing same, &c.

SIDEWALKS.—The bed for the sidewalks, on each side of said street, will be 12 feet wide, composed of sand or gravel or other good material, and will correspond, in grade, as near as may be with the center line of said street; the said walks are to be made smooth and even and ready for planking.

CROSSWALKS.—At the southern intersection Bluff, Division and Wisconsin streets with said South First street, there are to be stone crosswalks three feet in width and composed of stone, not less than one foot in thickness and three feet in length, all well laid.

All said work to be done under the direction of the aldermen of said third Ward.—Dated April 10th, 1863.

CIRCUIT COURT, ROCK COUNTY.

Richard H Plummer agst Edward L Dimock and others.

IN pursuance and by virtue of a judgment of foreclosure and sale rendered in the above entitled action on the 21st day of January, 1863, in favor of the plaintiff against the defendants, I shall offer for sale and sell, at public auction, to the highest bidder, on Milwaukee street, in front of the Rock County Bank, in the city of Janesville, in said county, on

THE 24th DAY of APRIL, 1863,

at ten o'clock in the forenoon of that day, the following described real-estate, namely: all that tract, lot or parcel of land situate in the city of Janesville, in the county of Rock and state of Wisconsin, and known and distinguished as the north half of lot one hundred and seventy-three in Smith, Bailey & Stone's addition to Janesville, according to the recorded plat thereof, or so much thereof as may be sufficient to satisfy said judgment and the expenses of said sale.—Dated January 21st, 1863. IRA C. JENKS, Referee.

SLOAN, PATTEN & BAILEY, Plff's Attys. ja22d8m

The sale of the above described property is postponed until Friday, the first day of May, 1863, then to take place at the hour and place above mentioned.—Dated April 24th, 1863.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the [redacted]

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two-fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal and finished to perfection.* We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

SOUTH FIRST STREET.

Specifications for Grading, Paving Gutters and building Crosswalks on South First Street, between Main Street and Jackman Street in the Third Ward.

GRADING.—The road bed will be 30 feet in width between the paving of the gutters, and the center line of the road bed will be 18 inches above the bottom of the gutters. The road bed when completed will be crowning and uniform in surface, rising regularly from the bottom of the gutters to said center line. The grading will be estimated by the cubic yard in excavation, nothing being allowed for earth in embankment, surfacing, &c.

The material for embankment will be taken, first, from the sides of the road and in such manner as to form the gutters and a grade for sidewalks.

And, secondly, from the excavation to be made in the line of the road.

When the haul does not exceed 300 feet it will be estimated simply as earth in excavation, and bids must be made for the cubic yard, for every 100 feet over 300 feet.

The material for the road bed is to be earth and clay and no sand or gravel to be used.

GUTTERS.—The gutters, one on each side of said street are to be six feet in width at the top and eight inches in depth at the lowest point.

The gutters will be paved with good sound stone eight inches in width and placed upon their edges, and laid upon sand and gravel, and in such manner as to form a curved channel for the water. The shape of the gutters and the manner of laying the outside courses of stone, will be such as the aldermen of said ward may direct. The paving will be estimated by the lineal foot, which will include preparing bed for the stone, laying stone, hauling and furnishing same, &c.

SIDEWALKS.—The bed for the sidewalks, on each side of said street, will be 12 feet wide, composed of sand or gravel or other good material, and will correspond, in grade, as near as may be with the center line of said street; the said walks are to be made smooth and even and ready for planking.

CROSSWALKS.—At the southern intersection of Bluff, Division and Wisconsin streets with said South First street, there are to be stone crosswalks three feet in width and composed of stone, not less than one foot in thickness and three feet in length, all well laid.

All said work to be done under the direction of the alderman of said third Ward.—Dated April 10th, 1863.
